A Note from
2021 -23 Harbor President
Rob Hernandez

Happy Holidays and Happy New Year!

My last article as the club President for this round at least. Looking back, it is really amazing the amount of activities and fun things we do. The Garage helps keep our wonderful Model As moving. I remember the starting party for Janet's truck, then Covid struck and the fuel had time to "mature" to a fine varnish clogging things up again. Now it is running great with a new steering box so she can drift with confidence.

The club has so many wonderful members who lend a hand and work to make things happen. This was especially important since I was pulled away for other responsibilities. Thanks to Dennis for picking up the gavel and taking care of business. Last year was my first time attending the CCRG and it was great fun with some good seminars. I look forward to driving out to Clovis for the 2024 version. I hope to see you there.

The holidays are a time for family, friends, reflection, and a time to recharge and maybe look for the next great drive or perhaps through a catalog for some new bits your Model A. So some love and don't forget to prepare your windshield for the rainy season.

See you at the next meeting or on the road.

Rob

Dick and Debbie in Xmas parade

Jim Beardsley's sedan was covered with ribbons

It's holiday time and our Model As are out in force. There were two parades the same day here in So Cal. The Harbor Club covered both of them. Most of the cars were in Wilmington and a couple were in my town of El Segundo. In both parades, the cars were well received. Folks love those Ahooga horns!

The Harbor Club has participated in the Holiday parades for many years. The crowd loves the old cars.

El Segundo had 71 entrants this year. Everything from the World Champion Little league team, local dignitaries, military reps, scouts, bands, vocal groups, car clubs.... You name it. FUN!

Monty and I enjoyed the El Segundo Old Town Movie Theater presentation of "34th Street". We had 21 members and family view the 1947 B&W classic.

Thanks Activity Committee!

RESPECTFULLY SUBMITTED: Gloria Younkin, Secretary.

[Saturday Morning Coffee Gathering is Alive and Well!](#)

If you are looking for a little tire-kicking adventure on **Saturday** mornings between 7 and 9AM, check out the Caffeine Cruisers at the corner of Artesia Blvd. and Hawthorne, in Torrance, CA. Several of the Harbor Model A club members and other car enthusiasts of all car types meet to talk cars. There are some very nice autos and some nice people there, too!

The address is 17400 Hawthorne Blvd., Torrance CA. (at Artesia Blvd.)

Come on by and get your weekend started in true So. California style.

[2024 Membership, Roster and Club Merchandise Items](#)

Ruxella and Jim have a selection of new **Club merchandise**. We have hats, shirts, patches, t-shirts and we still have 60th anniversary items for sale at a discount. More to come. The updated **2024 Harbor phonebooks/rosters** are available soon from Ursi free of charge through e-mail. Club members that don't attend events can request a phonebook/roster by mail. Contact **Ursi Schmidt** at 310-561-4895. Make sure Ursi has your latest info. **Just a note:** We regularly update the roster. If you have any address changes, phone number changes or email changes, let Ursi know. Let Dick Wyckoff know, too. He'll put the info in the *Harbor Light*.

SANTA COMES TO WALTERIA

A Special Thank You from the Activities Committee

Our Club enjoys the friendship and generosity of many wonderful people.

Recently, Mirco & Elaine Pisu were kind enough to donate a refrigerator to the Walteria clubhouse where we meet. We are grateful for this addition to the clubhouse and send the Pisuus a very special

"THANK YOU"!!!

2024 Harbor and National Dues Info

Please send in your dues for 2024. The annual dues for the Torrance Harbor MARC are \$40. The National MARC dues for 2024 are \$50 annually.

Make the check out to "Harbor M.A.R.C." and send it to me:

Wilmington Holiday Parade

December 10 was a glorious day and our Harbor Area Model A Club had nine cars in the Wilmington Holiday Parade, plus Margarita (Rob's car) was part of the VFW entry. In the staging area, club members decorated their cars with garlands and ornaments, and other seasonal items. The parade route took us along Avalon Blvd for about a mile. There were 75 widely varied entries in the parade, consisting of city officials; Banning High School marching band, drill team and flags; equestrian units, including a stage coach; cultural groups, such as Azteca and Folklorico; vehicles from several different car clubs; and much more.

Following the parade, we stopped briefly to remove some of our decorations before driving a short distance to the Chowder Barge for a tasty lunch because no Harbor event is complete without eating!

Technical Tips

Jim's Tech Tips "Ignition Misfires"

We've all experienced it. When the engine is cold and first started up, the engine is running rough and you can tell not all 4 cylinders are firing. It usually clears up in under a minute. But later, when the engine is warm, you should not feel a miss when climbing a hill or accelerating into traffic. If the power is just not there, like you know it should be, where to look? It could be a carburetor problem, but don't overlook fouled spark plugs and problems in the distributor.

Check the point gap in the distributor. The cam follower wears as you drive and the point gap closes down, giving a weak spark. So check it and increase the gap back to 0.020" if needed. While you are there, look for burned points and clean them up or replace them; you might have a bad or weak condenser.

Look at the rotor. Make sure the black flat spring is touching the underside of the cap, and is not burned up. Wipe off any oil film on the rotor.

Look at the underside of the distributor cap. Inspect the graphite button on the underside. I have seen caps with the entire button broken off and missing.

Look at the inside of the distributor body (the black plastic piece). Look for an oil and dirt film on the inside. Wipe it out with a clean cloth. Look for "carbon tracks" on the inside of the cap, where the spark is jumping down to ground on the metal housing. (See photo.) Replace if needed.

Until next time, *Have a Model A Day!*
Jim
