PRESIDENT'S MESSAGE

March is behind us and now we spring forward. April is now upon us and with that more activities are planned.

Looking back first, the technical seminars at Chris Wickersham's garage are great and have very good turnouts and great lessons learned on more than just the topic at hand.

Les, Chris and Randy are scheming the next seminar in May that deals with carburetors. Be sure not to miss (no pun intended) this one.

Our March speaker, Scott Bonner, spoke on wills and trusts. He delivered a great program and answered questions. It was very informative for us.

After April's general meeting, Richard Anderson has invited the club to a family chili cookoff. Details can be found here in the newsletter.

May 2nd will be the Mt. Baldy tour and is also the National Day of Prayer. The tour starts at Royal Oaks Manor. Cars, drivers and guests will be blessed before we start. Please keep Art Moore and Joe Wilson in your prayers.

SAFETY COMMITTEE SEMINAR #2

Principals of Ignition with Model A and B Distributor Theory and Function.

On Saturday, March 16th Chris Wickersham hosted our clubs second safety seminar.

This seminar was a very hands on learning experience and everyone walked away with a better understanding of the topics covered.

Members learning from members, sharing insights and learning the issues of keeping your Model A running great.

Many types of distributors systems with appropriate tools were also presented and displayed.

Seventeen members, in attendance, appreciated using an engine stand setup to practice engine timing and distributor calibration of engines.

A plus for the morning was a give away of parts, parts for sale at great discount prices and of course , coffee and donuts.

Hats off to Chris and Les Eddington and all that made this such a wonderful learning experience.

I urge everyone to make time to experience one or more of these safety seminars throughout the year. There will be one every other month throughout 2024.

Note: watch for the next Tech Seminar in May.

The Topic is Carburation with Randy Harper.

GRANDPA'S 31 SPORT COUPE

When Scott Doudrick was a kid in Kansas City, MO in the late 70's, his grandpa had an errand for him. He had just bought a Model A and he wanted his help in driving it home. It was dark in color and pretty beat up but he remembers how excited he was to be sitting beside him on the way home. Grandpa had really wanted a Sport Coupe but settled for that one. He worked on it and then traded for another Model A until he finally found the Sport Coupe.

Scott remembers how excited Grandpa was one Christmas to receive a rumble seat step as a gift. Truth be told he probably picked it out himself. Christmas or large family gatherings always included rides in the Sport Coupe. Scott always loved all of his A's and would head to the garage on visits to enjoy the smells of the upholstery and fuel, sit in the cars and do drawings of them.

When he passed in 2005 he wanted the A to go to Scott's uncle. His uncle couldn't keep it so Scott's dad bought it and eventually took it to their home in North Carolina. His parents enjoyed the car until 2021 when they decided it should go to Scott and trailered it out to him in California. Scott had always coveted it but wasn't sure he could keep 2 old vehicles going. He pulled his 1939 Ford pickup out of the garage and covered it in the driveway to make room for it.

Soon after driving it in the hills of Altadena, it was clear the engine needed some attention. A valve job was first on the list. Scott had never done anything like this before but with club member Chris Wickersham guiding him the project was started. Issues with the head gasket sealing was the first thing to crop up after putting things back together. After pulling the head back off and seeing why it wouldn't seal properly, it was reinstalled and after driving it some it finally sealed. A complete rebuild is in the future and Scott's son is taking an interest in it and spent a year in the Pasadena High School Model A Club.

It looks promising that Grandpa Parson's Sport Coupe will stay in the family for another generation to enjoy.
