## From the President

Hello SBMAFC  
members!  
We have all been  
busy with travel  
plans, on vacation

already or most importantly, attending family member's graduation ceremonies! It has such exhilarating moments and tears of happiness.

Please look for the email that Jill sent out with the 3 questions about the upcoming car shows. Please answer all 3. It will help us arrange for parking and other details for everyone.

The plans for our club banner are coming along nicely. Final decisions next week. Thanks to Jill and Steve Penniman for their attention to detail and communication.

Meanwhile our advertising section has been revamped. Check it out and next month look for new advertisers we are adding!

See you soon in your Model A and be safe!

## NEWS FROM NORWAY

While Annie is with Chris in Norway getting ready to go to the tri-meet in Sweden she sent this interesting photo below. She wrote, "I thought you might get a kick out of seeing what a mail delivery truck looks like in Norway. They look like toys. The postal system in Norway is terrible. They only get mail delivered three times a week."

My question? Well it saves on gas but where does the mail go? -Editor

# May 2024 Funk Zone Walking Tour

We were invited to park our cars in front of the Assemblage Store. It's the old loading dock for the Weber Bakery.

The old Weber grain silo and other sites in the Funk Zone

I brought an old crate so the guys could act like they were working there loading Weber bread.

At Kunin Winery in the Funk Zone it is called the Valley Project. There is a chalk drawing by a LA street artist Elkpen, features SB County's 5 wine regions. You can't take your eyes off of it and it makes you smarter about wine.

The chalk was from France

## MAFFI Minute

Have you ever wondered what being a Trustee for the Model A Ford Foundation is all about? The Model A Ford Foundation has 15 Trustees and the positions are nonpaid. Terms are three years in duration and term limits are 6 consecutive years. Meetings are done via Zoom, but there is a day-long face-to-face meeting in Michigan two days prior to Model A Days each year (also, travel expenses are non-reimbursable; this is 100% volunteer work).

A sampling of duties include: creating and ordering signage at the museum for displays and events, programming and maintaining inventory, and financials-- some daily. There are several committees to be chaired and worked on: day-to-day museum management, finance, fundraising, the construction expansion, the design and development of the displays, insurance, assessment/deassessment of vehicles, fleet maintenance, social media, solicitation of parts, tool acquisition and inventory, by-laws and job description updates, advisory, and partner museum liaisons as well as Model A Days each year (which has a huge number of subcommittees from parking to staffing the gates to managing the swap meet, the first start program, riding and driving Model A's). There are always a variety of other projects that need a manager too (ie: bus restoration, booth displays at meets, library collections, period attire collections as well as developing national magazine articles and ideas.)

Individuals also serve as officers (President, Vice President, Secretary, and Treasurer and a variety of other tasks: MAFFI registrar, picking up and delivering vehicles, managing gift shop items, updating and maintaining the MAFFI website and IT systems within the museum.

If any of this kind of work is of interest to you, please contact John Begg at [jwbegg@gmail.com](mailto:jwbegg@gmail.com).

Happy Motoring,

Cindy Ellenbecker, MAFFI Secretary

## MODEL A Era Fashion

Our Model AA is missing an authentic Model A horn! (Farm fixed by Sandy's father) Anyone have one with whatever mounting bracket they used that we can buy to get the proper response from the truck?

Our '29 Model AA is being entered in the Carpinteria 4<sup>th</sup> of July Parade by the Carpinteria Valley Museum of History, with appropriate 1920's characters, etc. This occurs on **July 6**, after the Rods and Roses event in downtown Carpinteria.

Sears Summer 1929 cotton handkerchiefs.

Embroidered 1920s Vintage Handkerchiefs can be found on Ebay and Etsy to top off your Era Fashion look.

These were posted on Model A Era Fashions by Sherry Winkinhofer For fun, I'm printing handkerchief etiquette I found online.

**Rule 1:** If you see someone perspiring profusely or crying, you can offer that person the use of your fresh handkerchief but only if it is fresh (unused). After all, you wouldn't give someone a used tissue. And do not ask for your handkerchief back.

**Rule 2:** Never use a pocket square for your nose or to wipe your brow unless there is no other choice.

**Rule 3:** You can use a handkerchief in the presence of others, but it is polite to say "Excuse me" prior to wiping your nose. Do not reuse your handkerchief a second time, however, in front of others. Excuse yourself and wipe or blow your nose in private. Place the handkerchief back neatly in your pocket.

**Rule 4:** If someone loans you a handkerchief, return it laundered. If the loan comes from a stranger, ask how it should be sent back.

**Rule 5:** Do not stuff a balled up handkerchief into your pant's pocket or purse. Handkerchiefs should be laundered, pressed, and folded neatly into a square

# MODEL A MECHANICAL

Jim's Tech Tips from MAFCA's The Flying Quail, April 2024 "Make and Carry a Temporary Gas Gauge" Every now and then you will come across a car or truck with an inoperable gas gauge. For example, the float sinks. You don't want to go driving around without knowing how much fuel you have in the tank.

Here are some basic instructions that you can use to make a temporary gas gauge, to use until the gauge is repaired. It's not a bad idea to carry it with you, to use on your car or to help someone traveling with you.

Take a simple paint stirring stick, like they give away at a paint store, and measure up from the end to mark the place indicating a Full tank. From there, you can use a ruler to estimate the  $\frac{1}{2}$ ,  $\frac{1}{4}$  and  $\frac{3}{4}$  levels. Score a line in the wood at these 4 places, and then darken each line with a black marker.

The gas tank changed design between 1928-29 and 1930-31. The '28-29 tank holds about 10 gallons, and the larger '30-31 tank holds about 11. That means that the distance to Full is slightly different between the two tanks.

I score and mark one side of the paint stirrer with the '28-29 height to Full of  $7\frac{1}{4}$ ", and then mark off the quarters from there. Then I do the same on the other side of the stick using the 1930-31 height to Full of  $8\frac{1}{2}$ ". Label each side. Now you have a stick that can be used on any year Model A. T

o use it, remove the gas cap (and the screen in the filler neck, if the car has one) and just dip the stick straight down until you touch the bottom of the gas tank. Now lift it out and see where the wet gas level is on the gauge. It will be approximate, close enough to drive with some confidence, knowing you will have enough fuel.

I hope you never get stuck with an inoperative gas gauge, but if you do, now you can be prepared with
